- 1 Academic Planner (June 2022-July 2023)
  - Choose the simplest layout with big boxes for writing. No need for stickers or lots of goal charts. Clean and easy to read is best.
  - Make sure it has a monthly view as well as a weekly/daily view.
  - Make sure you can use it easily, and it makes sense for your brain!
  - Try practicing with your planner in July or August to see how it "fits."
